On March 22, 2022, the Board of Trustees for the Town of De Beque voted unanimously to support the De Beque Fire Protection District's mill levy increase ballot issue for the May 3, 2022 elections. The Board understands the critical need for funding of services in the Community. Without question, the De Beque Fire Protection District has, and continues to provide exemplary health and fire protection services.

The mill levy increase will help fund replacement of outdated fire apparatus (fire trucks, ambulances, equipment) and will also help meet the number of emergency care responders needed to meet shift staffing requirements dictated by the state. The Town of De Beque acknowledges these needed services and strongly supports the mill levy ballot.

The Board of Trustees urges the Community to support the proposed mill levy which will allow for continuity in the high level of care and protection.

A handwritten signature in red ink that reads "Shanelle Hansen". The signature is written in a cursive, flowing style.

Shanelle Hansen
Mayor
Town of De Beque
